PROFESSIONAL SUMMARY

Computer Engineering student at Efrei Paris specializing in web development and AI automation. I create digital solutions that solve real business problems and deliver measurable results. With expertise in building responsive websites, automating complex workflows with n8n, and leveraging AI through advanced prompting techniques, I transform technical challenges into streamlined solutions. My approach combines technical precision with strong communication skills, ensuring every project works flawlessly and exceeds client expectations. Fluent in three languages and based in Paris, I bring a collaborative approach to delivering high-performing websites, intelligent automation systems, and AI-powered solutions.
